

VOLKS|LICHT

# VOLKS|LICHT

The Volkslicht brings affordability without compromise to those wanting to make use of LED as a lighting source, but were worried about the cost. From the makers of the LDI award winning Impression range, this 'Peoples light' uses 60 Rebel LED's to create a full color palette from strong saturates to subtle pastel colors for shorter throw applications. The Volkslicht is small, easy to rig and weighs in at just 8 kg (17 lbs).

To cap it all off, the Volkslicht also features full range dimming, a strobe effect, and a new version with motorized zoom optics from 10° to 26° light distribution.

VOLKS|LICHT

## LIGHT SOURCE

Additive Color mixing  
LED Type 60x Luxeon Rebel high power LEDs  
Lifetime 50.000h

## RGB MODEL

21 Green LEDs, 21 blue LEDs, 18 Red LEDs,  
wavelength optimized for a maximum presentable color space

## WHITE MODEL

42 cold white LEDs, 18 warm white LEDs  
allow a continuously adjustable color temperature

## OPTICAL SYSTEM

**Standard:** Exchangeable optical carrier with 11° light distribution angle  
**Zoom version:** Zoomable optical system with 10° to 26° light distribution angle

## MOVEMENT

High precision stepping motor control  
8 or 16 Bit resolution selectable  
Position Feedback

## CONTROL

DMX-512 protocol  
Backlit graphic-LCD  
Overtemperature protection  
Internal color-presets

## CONNECTORS

DMX: XLR 3 pin

## OPERATION PARAMETERS

Mains voltage: ~100-240V, 50-60Hz  
Power consumption: 180VA  
Maximum ambient temperature 45°C

## WEIGHTS AND MEASURES

Width: 270mm  
Length: 285mm  
Height : 355mm  
Weight: ~ 8 kg
